

# NEW MANYATTA NORTH OF KENYA

**10 NIGHTS SAFARI**

## Day 1

# Arrival at New Manyatta

Your adventure begins with your arrival at our tranquil home at the base of Mt Kenya — where the serene views and our warm hospitality instantly welcome you.

After check-in, unwind by the private poolside, sipping complimentary drinks and enjoying light snacks as you take in the peaceful surroundings.

The air is calm, the sun soft against the horizon — the perfect way to ease into your getaway. As evening approaches, the warmth of a bonfire sets the tone for a relaxed night, whether outdoors beneath the stars or indoors in a cozy lounge, depending on your mood or weather.

The evening flows with laughter, soft music, and a delicious dinner prepared to your liking. Retire to your elegant suite for a peaceful overnight stay, ready for the days of exploration ahead.

## Day 1

# Ol Pajeta Conservancy

After a filling breakfast, set out to Ol Pajeta Conservancy—a beautiful wildlife conservancy in Laikipia, known for its rhinos, chimpanzee sanctuary, and rich variety of wildlife. You enjoy a game drive across open plains with views of Mount Kenya, while learning about conservation and the protection of endangered species. It is a perfect stop for combining wildlife, nature, and conservation in one experience.

Overnight Stay at New Manyatta Home

## Day 2

# Aberdare National Park

Wake up to a hearty breakfast before departing with packed lunch for full days Safari through Aberdare National Park. A full day surrounded with mist-covered highlands, lush bamboo forests, and rich alpine vegetation as you ascend to elevations reaching 3000 meters above sea level. Enjoy a picnic lunch in the park, with opportunities to see elephants and antelopes. One of the special highlights is the giant forest hawk, a bird particularly associated with the Aberdare ecosystem.

Overnight Stay at New Manyatta Home

New  
Manyatta

## Day 3

### Drive to Maralal

Leave the foothills of Mt. Kenya and journey north towards Maralal, where the scenery gradually transforms into rugged hills, open valleys and expansive northern landscapes. Stop over for lunch at Thompson Falls—where the Ewaso Narok River plunges into a deep gorge. Continue to Maralal and settle into the Ngari Hill Ecolodge, set amidst beautiful natural surroundings with sweeping views and a peaceful atmosphere. As evening falls, enjoy the quiet charm of the lodge and the feeling of being far removed from the bustle of everyday life.

Overnight Stay at Ngari Hills Ecolodge

## Day 4

# Drive to Loyangalani

### Into the Northern Frontier

Follow the historic route towards Lake Turkana, tracing part of the journey taken by Count Sámuel Teleki during his pioneering expedition to the then-known Lake Rudolf. The long drive unfolds through ever-changing landscapes, passing the rugged Karisia Mountains, descending towards Baragoi, and continuing into the striking semi-desert region around South Horr. Between the Ndoto Mountains and Mount Nyiru, a dramatic contrast is created with the vast valleys and rugged mountains. As the journey continues, vegetation becomes increasingly sparse and the terrain transforms into an arid, otherworldly wilderness—marking your entry into the remote desert landscapes of Northern Kenya.

Overnight Stay at Palm Shade Resort

## Day 5

# South Islands

### Into the Northern Frontier

Follow the shores of the Jade Sea—Lake Turkana, as the road leads deeper into one of Kenya's most remote and dramatic landscapes. Set out by boat to South Island National Park, a remarkable volcanic wilderness of rugged cliffs, rocky outcrops and sweeping lake views, with opportunities to encounter crocodiles and abundant birdlife.

Enjoy a picnic lunch surrounded by the island's striking scenery before exploring its volcanic terrain on foot. Later, return across the lake and unwind at the resort, where the day ends with the possibility of enjoying freshly prepared Nile perch from Lake Turkana for dinner.

Overnight Stay at Palm Shade Resort

## Day 6

# Turkana

You venture deep into the desert for an intimate encounter with a traditional Turkana village. Discover a hidden desert spring, its sparkling waters a remarkable contrast to the surrounding arid wilderness, and experience genuine cultural interaction with the community. Continue to the shores of Lake Turkana to meet the El Molo, one of Kenya's smallest ethnic communities, whose traditional way of life is closely tied to the lake. After lunch at Palmshade, take a drive then walk to ancient rock paintings before ending the day watching the sun sink over Lake Turkana.

Overnight Stay at Palm Shade Resort

## Day 7

# Drive to North Horr

Leave the shores of Lake Turkana behind and journey deeper into the remote northern wilderness towards North Horr, where a Catholic mission and Muslim community exist side by side, offering a remarkable example of different faiths living and working together in harmony. North Horr offers a rare glimpse into a traditional desert community—the Gabra people. Accommodation here is simple and authentic, but it is precisely this simplicity that makes the experience special—an opportunity to step away from conventional safari comforts and connect more closely with the rhythm of the desert.

Overnight Stay at North Horr Missionary

## Day 8

# Across Chalbi Desert

Begin the morning in a traditional Gabra village, witnessing the community's pastoral way of life as they milk their herds and sharing in the rare experience of tasting fresh milk. The Gabra are a traditionally nomadic pastoralist community, renowned for their remarkable ability to navigate and thrive in the harsh desert environment, with cultural traditions shaped by mobility, livestock and close-knit community life.

From the north, journey to the south through the vast Chalbi Desert, where the landscape unfolds in a striking mix of golden sand, volcanic rocks and expansive seasonal dry lakebeds. This is Northern Kenya at its most raw and remote, with little separating you from the vastness of the desert. Destination is the hotel, where you settle in for the night after an unforgettable day across the Chalbi.

Overnight Stay at Jirime Hotel

## Day 9

# Marsabit National Park

Enjoy a morning safari through Marsabit National Park, a dense forest with towering ancient trees creating an unexpected green world in the desert, where large herds of buffalo roam and the beautiful Lake Paradise rests within the park's volcanic landscape. Explore the Paradise Crater, a dramatic volcanic depression surrounded by forest, before continuing your journey through the park towards the drier savannahs of Samburu. Have lunch at Sarova Shaba Game Lodge, then head out for an evening safari in Shaba National Reserve, where rugged scenery, riverine habitats and wildlife come alive as the day cools. Return to the lodge afterwards to relax and unwind.

Overnight Stay at Sarova Shaba Game Lodge

## Day 10

# Buffalo Springs National Reserve

Spend a full day exploring the beautiful Buffalo Springs National Reserve, where the Ewaso Ng'iro River breathes life into golden plains landscapes, doum palms and rocky hills. Named after its clear, spring-fed waters—which you get to enjoy, the reserve offers a wonderful contrast of arid wilderness and unexpected pockets of lush vegetation, attracting elephants, buffalo, giraffes, zebras and a variety of other wildlife. With unhurried game drives throughout the day, there is time to appreciate both the wildlife and the dramatic scenery that makes this part of Northern Kenya so distinctive, and the best way to close the 10 Day Adventure. Return to the lodge in the early evening, with the day winding down over stories, laughter and shared memories of the trip.

Overnight Stay at Sarova Shaba Game Lodge

# Departure: Back Home

New Manyatta

**“After breakfast, bid farewell to the wild landscapes and warm communities of Northern Kenya as you begin your journey back to Nairobi. As the scenery gradually changes along the way, take a moment to reflect on the remarkable landscapes, cultures and encounters that have shaped the adventure.”**
